

One day with a gaucho

Live the day of an Argentinean Gaucho and follow him by his work with the cows, calves, horses and the maintenance of their fences. Take part of the daily cattle drive. See how the Gauchos control and clean the cows' watering places and also support them when they are making the cow brands, cow vaccination and cow pregnancy tests.

Chill out on the "Estancia La-Quemada" (name of the ranch). Take a bath in the hot sun of Argentina and enjoy the roofed pool – only 5 running meters alongside the main building. Or just pass the time by reading the book you never had time before.

Spend time by riding a horse on old Gaucho trails thru the Argentinean pampas or just find your own trail.

It would be a pleasure for us to carry you to our own cheese factory in the near village called "San Vicente" to show you the production of our different types of cheese and of course afterwards we will sit together to taste some types of cheese. Naturally in association with a draft of a tastefully Argentinean red wine.

The Asado (barbecue) in the evening will complete your day with a selection of the best Argentinean Steaks and sausages. All specialist under you will be surprised with "Chinchulines, Morcilla and Molleja" to taste the Argentinean way of life. On demand we also could broil a lamb or a suckling pig. Or just enjoy the hospitality of the custodian who speaks fluent English, Spanish and German by sitting on the bar with a cold beverage in your hand.
